RE: Modular Approval Requirements of FCC 15.212

We confirm that the following requirements apply to this device:

- 1) The radio elements have their own shielding;
- 2) The module inputs, if present, are buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements under conditions of excessive data rates or over-modulation;
- 3) The module contains its own power supply regulation;
- 4) The module contains a permanently attached antenna, or will contain a unique antenna connector, and will be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c);
- 5) The module complies in a stand-alone configuration;
- 6) The module will be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748);
- 7) The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee;
- 8) The module complies with RF exposure requirements.

Signed,

Kirwan Magdamo Lead Project Engineer Stanley Black & Decker
